BASIC INSTRUCTIONS FOR EXTERNAL AV TECHNOLOGY SUPPLIERS

At each event that is carried by an external company – the hotel technician must be present. He is responsible for the installation and deinstallation, and is responsible for suspension from the ceiling grid, the application of panel patches, monitoring the process of installation etc.

Price for the assistance of a hotel technician:

MON-FRI – 8.00-18.00	EUR 38 / hour (including VAT)
MON-FRI – 18.00-8.00	EUR 38 / hour (including VAT)
Weekends and holidays	EUR 38 / hour (including VAT)

Price for using hotel scissor lift – the lift must be operated only by the hotel crew

EUR 42 / hour (including VAT)
EUR 208 / day (including VAT)

Price for the lift operating = price for the assistance of a hotel technician

Tariff price for using hotel sockets:

400V circuit	EUR 83 / pc
220V/16A circuit	EUR 21 / pc

Before the event (min. 5 days) the external supplier has to provide:

1. Contact person – manager of construction, responsible for installation
2. Time plan for the construction – delivery of the equipment, installation, deinstallation, suspension etc.
3. Breakdown of individual suspension points
4. State the maximum weight, which will be hanged on each suspension point
5. Relevant requirement for using the hotel facilities – service lift, platform, cables, thoroughfares for transit vehicle, connection for diesel aggregate and other...
6. Requirements for using hotel electric sockets (Breakdown of load on individual sockets (kW, A))

After arriving at the hotel – to the loading ramp it is necessary to contact the banquet coordinator assigned to the event, who will provide the responsible technician.

The external supplier is not allowed to use the following without the supervision of the hotel technician:

1. Service lift
2. Hotel platform
3. Entrance besides the congress room and foyer
4. Entrance to the area above the congress room
5. Touchscreens for controlling lights in the room
6. Foldable and starting grids (silver)

The hotel technician will always monitor

1. Installation of the equipment
2. Suspension of the equipment and constructions on the ceiling
3. Electric socket loads
4. Utilisation of hotel equipment and facilities
5. Deinstallation of equipment

Clarion Congress Hotel České Budějovice, ex. Hotel Gomel (4/2012)

Clarion Congress Hotel Olomouc, ex. Hotel Sigma Olomouc (2013)

Suspension of the equipment and constructions on the ceiling

1. When suspending items on the silver grid, or foldable parts it is necessary to respect the maximum load and appropriate procedures for the attachment, in order to prevent damages/scratches of the grid. These procedures shall be explained by the technician, who will be
2. All clamping devices must be homologated with the stated maximum loading possibility.
3. The weight of all equipment must be known due to the loading specification.
4. When hanging the items from the black construction, it is necessary to keep to the same rules as in the case of hanging from the silver grid.

BASIC INSTRUCTIONS FOR EXPOSING A VEHICLE OR OTHER MACHINE CONTAINING OPERATIONAL FLUIDS

1. When exposing a vehicle or any other machine containing operational fluids, the exhibitor is obligated to pump out the maximum possible amount of operational fluids (oil, fuel, water, chemical substances in fluid state etc.).
2. The maximum permitted fuel content in a tank is 10l.

BASIC INSTRUCTIONS FOR DigiPanels INFORMATION PANEL USE

The respective banquet coordinator is responsible for entering and creating individual layouts.

The material must be submitted in sufficient advance before the event.

All panels are in 16:9 format, if the provided sources of the documents are submitted in 4:3 format, they will be displayed on the panel unstretched with blue edges.

The source of the documents must be provided in the following formats:

Static presentation (resolution according to applied panel):

JPEG format

GIF format

Dynamic (mobile) presentation (resolution according to applied panel):

AVI – video format

Flash format

PowerPoint 97 version format (MS PowerPoint offers this version when saving)

If using 9 screens it is necessary to provide the source of the documents with a description on which panel the respective presentation/picture/video should be placed.

This large Info panel enables the following variants:

1. 9 x static picture
2. 8 x static picture + 1 x video/flash/PowerPoint in 97 version
3. 7 x static picture + 2 x video/flash
4. 6 x static picture + 3 x video/flash
5. Video/flash/PowerPoint in 97 version in fullscreen mode, thereby through all 9 screens
6. Static picture in fullscreen mode, thereby through all 9 screens

Resolution of the information panels:

In front of the escalators – 16:9 (1 panel) – 1360x768 pixels

– a total of 2 screens next to each other

“Book” between Leo and Virgo and on the 3rd floor - 9:16 (1 panel) – 1360x768 pixels

– a total of 2 screens next to each other

Door panel – at each room on the 3rd floor - 16:9 – 1680x1050 pixels

9th screen panel – between the Meridian and Zenit room and in the lobby bar Chronos

– 1 screen from the large panel – 4:3 – 1360x768 pixels
